PROFILE

Senior Frontend Engineer with over 12 years of experience architecting and modernizing complex enterprise web platforms, specialized in Vue 3, TypeScript, Pinia, and Tailwind CSS. Proven technical leader experienced in legacy-to-modern frontend transitions, establishing design foundations, mentoring engineers, and applying an AI-native engineering workflow. EU citizen based in Spain, ready to relocate to Switzerland or collaborate remotely across Europe; fluent in English, Dutch, and Spanish, with elementary German (actively studying).

TECHNICAL SKILLS

Core Frontend: Vue 3 (Composition API), TypeScript, JavaScript (ES6+), Pinia, HTML5, CSS3

UI & Design Systems: Tailwind CSS, PrimeVue, Component-Driven Development, Responsive UI, WCAG 2.1 AA

Architecture & Tools: Clean Architecture, Modular Architecture, Vite, Git, RESTful APIs, Node.js

AI & Secondary Stack: AI-Native Workflow, Conversational UI, WhatsApp APIs, Express, MongoDB, Angular, Web Components

WORK EXPERIENCE

Senior Frontend Developer & Frontend Lead — GIRA S.L. 07.2015 – Present | Madrid, ES (Remote)

- **Frontend Architecture & Modernization:** Directed technical architecture migrating core ERP interfaces to a modern component-based structure using Vue 3, Pinia, TypeScript, and PrimeVue.
- **Team Guidance & Code Quality:** Supervise and mentor two frontend developers, conducting code reviews, defining best practices, and handling high-complexity modules.
- **Core Products, B2B & HR Platforms:** Engineered automotive B2B catalogs, e-commerce dashboards, workshop reception workflows, and built a comprehensive HR management platform from scratch.
- **Kit Digital Revenue Impact & End-to-End Delivery:** Built frontend architectures for key software suites sold through Spain's Kit Digital initiative (directly driving revenue growth), overseeing server performance, deployments, and client-feedback iterations.
- **AI & ERP Integration:** Architected conversational UI connecting proprietary AI with ERP; currently developing integration between WhatsApp Web, AI, and ERP.

Stack: Vue 3, Pinia, TypeScript, PrimeVue, Tailwind CSS, Vite, Node.js, REST APIs

Frontend Developer (Selected Projects) — Independent / Remote Projects 2024 – Present | Remote (EU / CH)

- **BeeWell:** Leading remote frontend redesign and modernization for a Swiss enterprise website, focusing on web performance, accessibility, and modern UI.
- **Language Learning Platform:** Architected and built an interactive web app with grammar tools using Vue 3, Pinia, TypeScript, and Tailwind CSS.

Stack: Vue 3, Pinia, TypeScript, Tailwind CSS, Vite

Web Developer & IT Specialist — Self-Employed 02.2012 – 07.2015 | Madrid, ES / Rotterdam, NL

- Developed dynamic corporate websites and e-commerce stores using PrestaShop, WordPress, and Joomla.
